The President's Club of the Glasgow-Barren County Chamber of Commerce, formed in 2003, recognizes Chamber partners who generously contribute to the commercial, tourism and economic development efforts of the Chamber. Membership fees in the President's Club are over and beyond regular Chamber membership fees.

Many of the President's Club members were already paying at President's Club levels before the program was established through their contributions to Chamber activities. Most President's Club members say that their reason for supporting the President's Club is a desire to encourage the growth and development of the community. As of August 2007, there are 30 members in the President's Club.

The Chamber has established special benefits provided only to the President's Club members to show appreciation and to recognize them with notable recognition and honor for their support. In this way, the Chamber ensures that the dollars provided by sponsorship of the President's Club are going toward development of the Glasgow-Barren County community for its citizens.
